Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on June 9, 2000. It is noted, however, that applicant has not filed a certified copy of the 2000-173840 application as required by 35 U.S.C. 119(b).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1, 3-7, and 9-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Minabe (5,961,394). Regarding claims 1, 7, 13-16, Minabe discloses a wood-type, golf club head comprising a shaft 26 attached to metal head 12 wherein the metal head (Figure 1) including a plurality of pieces (upper surface 20, side periphery bottom surface 22, face member 10) are welded together by laser welding (Col. 4, lines 1-14). With respect to the manufacturing technique of the metal parts, Minabe discloses the face member 10 is formed by forging process but does not disclose other club parts are formed by forging process. Official Notice is taken that it is well-known in the art to fabricate club parts by casting, pressing, stamped and forging

and it would have been obvious to do so here to facilitate assembly. Regarding claims 3- 4 and 9-10, Minabe discloses a face member 10 with thickness ranging from 2.5-3.5mm and head body 12 with thickness about 1.2mm (Col. 3, lines 25-37), and different alloy materials can be welded together. In addition, Official Notice is taken that it is well-known in the art to weld dissimilar metals together to optimize mass distribution and structural strength and it would have been obvious to do so here to gain the same benefits. Regarding claims 5-6 and 11-12, Minabe's club head inherently has at least 60% of the same material or at most thru routine optimization and with difference in melting points between metal pieces less than 250° or less. Regarding claims 17-18, Official Notice, as best understood by examiner, is taken that it is known in the art to fabricate side member 102 into two pieces (inner and outer piece) and crown member 202 into two pieces (inner and outer piece) to improve mass distribution, structural strength, and center of gravity, and enlarged sweet spot, it would have been obvious to do so here to gain the above benefits.

Response to Arguments

Applicant's arguments with respect to claims 1-12 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
